

Exclusively from PRIMEON Inkjet Printable Media – Water Resistant & Ultraglossy

PRIMEON's high-resolution „photo-on-disc ultragloss“ surface allows for professional disc printing with suitable inkjet printers. Thanks to the ultraglossy premium coating as well as the full metallisation of the disc, homogeneous and photo-realistic printing results can be achieved. The ink dries within seconds after printing,

leaving nothing but a brilliant and absolutely water-proof and smear-resistant result. The shiny premium coating guarantees first class disc prints with breathtaking, unparalleled colours that will cause a sensation – and with PRIMEON's reliable media an extended longevity of your precious data!

- ✓ Ultraglossy, water resistant premium surface coating
